

Name \_\_\_\_\_

### Chess Notation: Level 1

For the majority of chess moves, you will write down **the name of the piece followed by the square that it moves to**. For example, a Bishop that moves to f5 is written “Bf5”; a Knight that moves to c6 is written “Nc6” and so forth. **For Pawn moves, you simply write down the square that the Pawn moves to**. If a Pawn goes from b2 to b4, you write “b4”; if it moves from a7 to a6, you’d write “a6” etc.

Remember these abbreviations:

N means Knight

B means Bishop

R means Rook

Q means Queen

K means King

(Pawns have no abbreviation)

Using this knowledge, how would you notate the following opening, known as the Giuoco Piano?
